#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

HORIZON GROUP PROPERTIES, INC.  
Notes to the Consolidated Financial Statements

Note 1 – Organization and Principles of Consolidation

Horizon Group Properties, Inc. (“HGPI” or, together with its subsidiaries, “HGP” or the “Company”) is a Maryland corporation that was established on June 15, 1998. The operations of the Company are conducted primarily through a subsidiary limited partnership, Horizon Group Properties, L.P. (“HGP LP”) of which HGPI is the sole general partner. As of December 31, 2015 and 2014, HGPI owned approximately 78.7% of the partnership interests (the “Common Units”) of HGP LP. In general, Common Units are exchangeable for shares of Common Stock on a one-for-one basis (or for an equivalent cash amount at HGPI’s election).

The Company’s primary assets are its investments in subsidiary entities that own real estate. HGPI consolidates the results of operations and the balance sheets of those entities of which the Company owns the majority interest and of those variable interest entities of which the Company is the primary beneficiary. The Company accounts for its investments in entities which do not meet these criteria using the cost or equity methods. The entities referred to herein are consolidated subsidiaries of the Company, unless they are discussed in Note 4; those entities are accounted for using the equity method of accounting or the cost method, as identified.

Note 2 - Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of HGPI and all subsidiaries that HGPI controls, including HGP LP. The Company considers itself to control an entity if it is the majority owner of or has voting control over such entity. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported and disclosed in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Investment in Real Estate

The Company allocates the purchase price of properties to net tangible and intangible assets acquired based on their fair values in accordance with the provisions of GAAP. In making estimates of fair values for purposes of allocating purchase price, the Company utilizes a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property and other market data. The Company also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing, and leasing activities, in estimating the fair value of the tangible and intangible assets acquired.

The Company allocates a portion of the purchase price to above-market and below-market lease values for acquired properties based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between: (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management’s estimate of fair market lease rates for the corresponding in-place leases, measured over the remaining non-cancelable term of the lease. In the case of below-market leases, the Company considers the remaining contractual lease period and renewal periods, taking into consideration the likelihood of the tenant exercising its renewal options. The capitalized above/below-market lease values (included in Deferred Costs or Prepaid Rents and Other Tenant Liabilities on the consolidated balance sheets) are amortized as either a reduction of, or addition to, rental income over the remaining noncancelable terms of the respective leases. Should a tenant terminate its lease prior to its scheduled expiration, the unamortized portion of the related lease intangibles would be added to income or charged to expense, as applicable.

The Company allocates a portion of the purchase price to the value of leases acquired based on the difference between: (i) the property valued with existing in-place leases adjusted to market rental rates and (ii) the property valued as if vacant. The Company utilizes independent appraisals or its internally developed estimates to determine

HORIZON GROUP PROPERTIES, INC.  
Notes to the Consolidated Financial Statements

the respective in-place lease values. The Company's estimates of value are made using methods similar to those used by independent appraisers. Factors management considers in its analysis include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases including leasing commissions, legal and other related expenses.

The value of in-place leases (included in Buildings and Improvements on the consolidated balance sheets) is amortized over the remaining initial terms of the respective leases. Should a tenant terminate its lease prior to its scheduled expiration, the unamortized portion would be charged to expense.

Real Estate and Depreciation

Costs incurred for the acquisition, development, construction and improvement of properties, as well as significant renovations and betterments to the properties, are capitalized. Maintenance and repairs are charged to expense as incurred. Interest costs incurred with respect to qualified expenditures relating to the construction of assets are capitalized during the construction period.

Amounts included under Buildings and Improvements on the consolidated balance sheets include the following types of assets which are depreciated on the straight-line method over estimated useful lives, which are:

Buildings and improvements	31.5 years
Tenant improvements / origination costs	10 years or lease term, if less
Furniture, fixtures and equipment	3 - 7 years

In accordance with GAAP, the Company records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated over their expected holding periods are less than the carrying amounts of those assets. For assets held in the portfolio, impairment losses are measured as the difference between carrying value and fair value. For assets to be sold, impairment is measured as the difference between carrying value and fair value, less cost to dispose. Fair value is based upon estimated cash flows discounted at a risk-adjusted rate of interest, comparable or anticipated sales in the marketplace, or estimated replacement cost, as adjusted to consider the costs of retenanting and repositioning those properties which have significant vacancy issues, depending on the facts and circumstances of each property.

Restaurant Operations

Costs incurred for the acquisition, development, construction and improvement of restaurants are capitalized. Inventory is included in other assets. Operating revenue is included in other revenue and operating expenses are included in property operating, and general and administrative expenses.

Pre-Development Costs

The pre-development stage of a project involves certain costs to ascertain the viability of a potential project and to secure the necessary land. Direct costs to acquire the assets are capitalized once the acquisition becomes probable. These costs are carried in Other Assets until conditions are met that indicate that development is forthcoming, at which point the costs are reclassified to Construction in Progress. In the event a development is no longer deemed probable and costs are deemed to be non-recoverable, the applicable costs previously capitalized are expensed when the project is abandoned or these costs are determined to be non-recoverable.

At December 31, 2015, predevelopment costs classified as Other Assets and Construction in Progress included projects in Hartford, Connecticut, Laredo, Texas and Malaysia and totaled \$4.3 million and \$5.2 million, respectively. At December 31, 2014, predevelopment costs classified as Other Assets and Construction in Progress totaled \$1.3 million and \$1.2 million, respectively. During 2015, costs related to a development in Tulsa, Oklahoma, totaling \$425,000, were written off to general and administrative expense, as management believes that it is unlikely that this development will be completed.

HORIZON GROUP PROPERTIES, INC.  
Notes to the Consolidated Financial Statements

Cash Equivalents

The Company considers all liquid investments with a maturity of three months or less when purchased to be cash equivalents. The Company's cash is held in accounts with balances, which at times, exceed federally insured limits. The Company has not experienced any losses on such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Restricted Cash

Restricted Cash consists of amounts deposited (i) in accounts with the Company's primary lenders in connection with certain loans (see Note 9), and (ii) in escrow accounts for infrastructure and interest payments in Huntley. At December 31, 2015 and 2014, the escrow accounts related to the Company's primary lenders included approximately \$363,000 and \$744,000 in capital improvement and tenant allowance reserves, respectively, \$571,000 and \$520,000 in real estate tax and insurance escrows, respectively, and approximately \$769,000 and \$448,000 for cash collateral accounts, respectively. At December 31, 2015 and 2014, the Huntley interest, infrastructure and expense escrow accounts totaled \$641,000.

Tenant Accounts Receivable

Management regularly reviews accounts receivable and estimates the necessary amounts to be recorded as an allowance for uncollectability. These reserves are established on a tenant-specific basis and are based upon, among other factors, the period of time an amount is past due and the financial condition of the obligor.

At December 31, 2015 and 2014, total tenant accounts receivable is reflected net of reserves of \$91,000 and \$105,000, respectively. The provision for doubtful accounts was \$23,000 and \$35,000 for the years ended December 31, 2015 and 2014, respectively. This charge is included in the line items entitled "Other operating" and "General and administrative" in the consolidated statements of operations.

Deferred Costs

Deferred leasing costs consist of fees and direct internal costs incurred to initiate and renew operating leases, as well as allocated purchase price related to above and below market lease values, and are amortized on the straight-line method over the initial lease term or renewal period. Deferred financing costs are amortized as interest expense over the life of the related debt.

Revenue Recognition

Leases with tenants are accounted for as operating leases. Minimum annual rentals are recognized on a straight-line basis over the terms of the respective leases. As a result of recording rental revenue on a straight-line basis, tenant accounts receivable include \$255,000 and \$260,000 as of December 31, 2015 and 2014, respectively, which is expected to be collected over the remaining lives of the leases. Rents which represent basic occupancy costs, including fixed amounts and amounts computed as a function of sales, are classified as base rent. Amounts which may become payable in addition to base rent and which are computed as a function of sales in excess of certain thresholds are classified as percentage rents and are accrued after the reported tenant sales exceed the applicable thresholds. Expense recoveries based on common area maintenance expenses and certain other expenses are accrued in the period in which the related expense is incurred.

Other Revenue

Other revenue consists of income from management, leasing and development agreements, income from tenants with lease terms of less than one year, revenue from the Series C TIF bonds and restaurant income.

Income Taxes

Deferred income taxes are recorded based on enacted statutory rates to reflect the tax consequences in future years of the differences between the tax bases of assets and liabilities and their financial reporting amounts. Deferred tax assets, such as net operating loss carryforwards which will generate future tax benefits, are recognized to the extent that realization of such benefits through future taxable earnings or alternative tax strategies in the foreseeable future

HORIZON GROUP PROPERTIES, INC.  
Notes to the Consolidated Financial Statements

is more likely than not.

As of December 31, 2015 and 2014, and for the years then ended, the Company did not have a net liability for any unrecognized tax benefits. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as interest or general and administrative expense in the consolidated statements of operations. During 2015 and 2014, the Company did not incur any interest or penalties.

Subsequent Events

Management has evaluated events through April 29, 2016, the date the consolidated financial statements were available to be issued.

On July 2, 2014, the Company and CBL agreed to a \$2,783,285 increase of CBL's purchase price for their interest in the El Paso Entities. The adjustment related to an increase in value of the El Paso Entities due to a favorable property tax settlement and has been recorded as a gain on investment in joint venture in 2014. CBL paid the increase to Horizon El Paso on July 2, 2014).

The shopping center owned by El Paso Center secures a 30 year loan from NATIXIS Commercial Mortgage Funding, LLC which had a principal balance of \$63.5 million and \$64.5 million at December 31, 2015 and 2014, respectively, bears interest at 7.06%, and is due December 5, 2017.

As additional collateral, the Company also pledged its interest in Horizon OKC and Horizon El Paso, LLC. Huntley Net Profits Interests and TIF Bonds

Gary J. Skoien was formerly the Executive Vice President and Chief Operating Officer of The Prime Group, Inc. ("Prime Group"). In connection with his employment with Prime Group, Mr. Skoien was previously granted an interest (the "Skoien Net Profits Interest") in the net profits generated by HDLP, the entity which owns approximately 378 acres of land in a master planned community in Huntley, Illinois (the "Huntley Project"), which obligation the Company assumed in connection with the purchase of the Huntley Project from Prime Group. The Skoien Net Profits Interest consists of a 9.675% participation in the Net Cash Flow (as defined in Mr. Skoien's Net Profits Agreement) distributed to the Company (excluding distributions of all amounts contributed or advanced by the Company to the Huntley Project plus interest per the terms of the agreement) from the Huntley Project. As of December 31, 2015 and 2014, a liability of \$166,000 and \$154,000, respectively, was recorded to reflect the estimated current fair value of the Skoien Net Profits Interests.

In 1993, the Village of Huntley (the "Village") created a Tax Increment Financing District (the "TIF District"). In 1995, the Village sold \$7.0 million of Series A TIF bonds and \$14.0 million of Series B TIF bonds and issued to HD LP Series C TIF bonds with a principal amount of \$24.4 million. In May 2009, the Village sold \$14.3 million of

Series 2009 TIF Bonds (the “Series 2009 TIF Bonds”), the proceeds of which were used to retire the Series A and B TIF bonds.

In connection with the issuance of the Series 2009 TIF Bonds, HDLP assigned a portion of the tax increment allocable to the Series C TIF bonds to the Village. The assignment agreement provides that payments made with respect to the Series C TIF bonds will be distributed in the following order of priority: (i) HDLP will receive the first \$204,285 annually until it has received a total of \$1.43 million; (ii) the next \$3.04 million will be allocated 75% to HDLP and 25% to the Village; and (iii) amounts in excess of those in (i) and (ii) will be allocated 25% to HDLP and 75% to the Village. The Series C bonds are subordinate to the Series 2009 TIF Bonds. Prior to 2014, no value has been ascribed to the Series C TIF bonds by the Company. In 2015 and 2014, HDLP received payments of \$840,000 and \$637,000, respectively, from the Series C TIF bonds, which is recorded as other income. The funds were used to make principal payments to U S Bank on the Huntley debt.

The TIF District contains approximately 900 acres of land currently or previously owned by HDLP or Huntley Meadows Residential Venture. The source of repayment for the Series 2009 TIF Bonds and Series C TIF bonds is (a) 100% of the increase in real estate taxes on the land in the TIF District above the taxes in place when the TIF District was created, (b) one-half of the Village’s one percent (1%) sales tax collected on retail sales occurring within the TIF District and (c) reserves associated with the Series 2009 TIF Bonds. The repayment of the Series 2009 TIF Bonds is not an obligation of the Company and is not reflected on the Company’s consolidated balance sheets as a liability.
